

SPD G2

Surge protection device

产品特点

- High surge protection for all lighting applications
- Failure indication LED
- Mains voltage up to 275 V
- Voltage protection level for connected LED driver <2 kV
- Push-in terminal

产品优势

- Suitable for luminaries of protection class I/II
- Several protection level options for different applications
- Securing uptime of your outdoor lighting installation from overvoltage pulses
- Fully compliant with IEC 61643-11

应用领域

- 街道和城区照明
- Industry lighting
- 户外应用
